Spec Sheet

6in Coax High Resolution VGA Port Saver Cable - HD15 M/F

StarTech ID: VGAEXTAA6IN

The VGAEXTAA6IN 6-inch VGA Port Saver Cable/coupler avoids expensive repairs to a computer or display. It does this by extending the port by 6in, thereby eliminating the weight and stress that would typically be placed on the port by a VGA cable. This is especially useful in an environment where cables are unplugged and re-inserted frequently.

Applications

- Extend a VGA interface by 6in
- Protect the video card or monitor's VGA port from wear and tear caused by frequent connect/disconnects

Features

- Molded connectors with strain relief
